

Hello Rabbits!

This is your homework menu for **Summer 1**.

You need to complete **at least 1** activity to bring in for **Monday 18th May** – to be shared in classes.

Our homework gallery on **Friday 22nd May**.

These ideas are linked to our topic, '**Minibeasts**'.

In addition, Reception children are expected to read to an adult 3x a week and record it in their reading record. Reading records will be checked throughout the week during guided reading sessions. Nursery children will bring a library book home on a Wednesday to share with their family. We are encouraging a 'love for reading' in school and the children look at a variety of books including fiction and non-fiction books as well.

PE will be on a **Thursday** – please can you come in with your PE kit on.

Milk and snack are provided for all children at 10.15am.

Mrs Penn

Expressive Arts & Design

Can you create a picture of your favourite Minibeast?

Using either colouring pencils, pens, paint, or other craft materials, you can create a picture of your favourite minibeast.

To extend this further, you could label your minibeast and explain why it is your favourite.

English (Reception)

Can you create a fact file?

Have a think about the different minibeasts that we have come across – How many legs does it have? Does it fly? Where does it live? What does it eat?

Draw the minibeast and add some fun facts about it!

Remember your letter formation!

Understanding the World (UTW)

Can you draw and label the life cycle of a butterfly?

We will be watching our pet caterpillars turn into butterflies!

Can you remember the life cycle of the butterfly?

(Eggs -> Caterpillar -> Chrysalis -> Butterfly)

Maths

Can you label 2D or 3D shapes?

It would be great to see how many shapes you can identify!

Can you draw the shape and label it?

2D shapes: circle, square, triangle, rectangle

3D shapes: sphere, cube, cone, pyramid, cuboid

English (Nursery)

Can you write your name and draw a picture of yourself?

The children are continuing to practice their name writing, pencil control, and fine motor skills this term.

It would be fab if you could draw a picture of each stage of the life cycle and label it.
